### **DETAILED ACTION**

1. According to paper filed on Oct. 12, 2004, the applicants have canceled claims 2, 5 and 8 and furthermore, have amended claims 1, 3, 4, 6, 7 and 9. The applicants have also submitted a new oath.

2. Claims 1, 3, 4, 6, 7 and 9-11 are now pending in the application.

### ***Response to Arguments***

3. Applicant's arguments filed on Oct. 12, 2004 have been fully considered but they are not persuasive regarding prior art rejection over Katsushima's reference. The applicants have amended claims to overcome enablement, indefiniteness and prior art rejections over Rzeszotarski's reference and Kufner-Muhl's reference. In regard to Katsushima's reference, the examiner does not agree with the applicants arguments that this reference does not disclose 1,3 dipropylxanthines substituted at 8<sup>th</sup> position with a cycloalkyl substituted with -COOR1. As clearly stated in the last office action, the compound no. 5 ( see tables I and II on page 1907 ) disclosed by Katsushima clearly anticipates the instant claims.

### ***Conclusion***

4. Rejections under 35 U.S.C. 112, first paragraph as well as second paragraph are now withdrawn.

5. Rejections under 35 U.S.C. 102(b) over Rzeszotarski's reference and Kufner-Muhl's reference are now withdrawn.

6. Rejection of claims 1, 3, 4, 6, 7 and 9-11 under 35 U.S.C. 102(b) over Katsushima's reference is maintained for the reasons of record.

NEW GROUNDS OF REJECTION

***Claim Rejections - 35 USC § 112***

7. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claims 3, 6, 7 and 9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 3, 6 and 9 depend upon claims 1, 4 and 7, respectively and define various structures substituted with COOR1 groups. However, three compounds ( compounds 6-8 ) in the middle lack antecedent basis since cycloalkyl group is not attached directly to the xanthine ring and furthermore, -COOR1 group is not attached directly to the cycloalkyl group as required in claims 1, 4 and 7.

In claim 7, the term --divresis---is indefinite since its meaning is not clear. Should it be --diuresis---?

In claim 7, it is not clear why an individual is in need of diuresis?. The applicants are suggested to rewrite the claim as --- A method of treating congestive heart failure in an individual ----- and delete ----for inhibiting the A1Ado receptor in an individual in need of diuresis----.

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
